# LET'S STICKER TOGETHER!

We're a family-run Canadian design studio. We've sold our own stickers in local shops for years, and built Sticker Zone so your customers can get exactly the stickers they want, printed right in your store.

# STICKER ZONE

## STICKERS PRINTED WHILE THEY WAIT

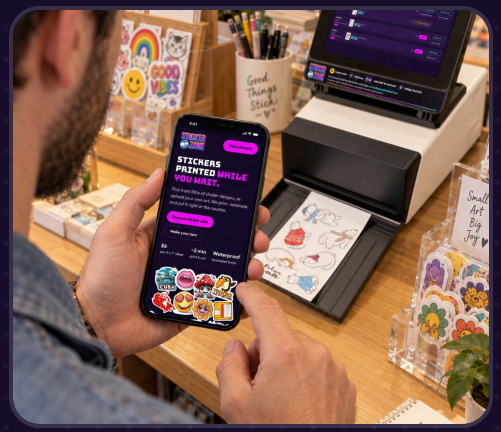

A self-serve sticker kiosk for your store

by Grumpy Bulldog Design Works · Canada

# HOW IT WORKS

Customers order on their own phone. Nothing to download.

1. **Scan the QR code** on the counter sign or a poster in the store. Your store's ordering page opens on their phone.
2. **Pick a design or make your own.** Hundreds of sheets to browse, or create custom stickers from their own photos*, or from a simple prompt they paste into the AI app on their phone. The stickers are cut out and laid out automatically.
3. **Pay at your counter.** Staff tap Print and the sheet is printed, coated and cut in a few minutes, ready to peel.

| $6 | 100S | 2 TAPS |
|---|---|---|
| per 4 × 7" sheet | of designs, new ones added | for your staff |

## ALL YOU NEED

A spot on the counter · One outlet · Internet (Wi-Fi or Ethernet) · Your till

## TRY IT IN YOUR STORE

Let's set up a pilot and see how your customers like it.

* **Customer photos stay private.** Pictures are prepared on the customer's own phone and used only to print their order. They are never shared or sold, and are deleted from our system overnight, or once a pickup order is collected.

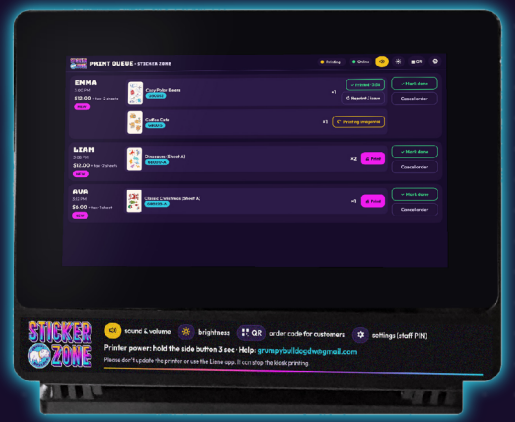

# WHY STORES LOVE IT

- **New sales, no inventory.** Every sheet is printed when it's bought: nothing to order, count or mark down.
- **A share of every sheet,** sold through your own till.
- **It draws people in.** Customers watch it print and cut, and come back for more.
- **Something they can't get online:** their own photo as stickers, made in minutes.
- **Always fresh.** Seasonal and holiday designs appear automatically.
- **You choose the content.** Family-friendly settings, and custom uploads are checked by staff before they print.

## WE LOOK AFTER IT

- Installation, setup and staff training
- The kiosk checks in with us all day: if the printer stops, **we know before you call**
- Updates install themselves overnight
- Help by email, and visits when needed
- Weekly sales emails so you can see how it's doing

## MADE FOR BUSY COUNTERS

- Big, clear buttons on a bright touch screen
- See the progress of every print at a glance: sending, printing, cutting, done
- Each order shows the customer's name and sheets
- One tap to print, reprint or cancel
- Help and controls printed right on the stand
